TALK LIKE A GRAPHIC DESIGNER

MINIMALISM - Minimalist art focuses on things like geometry, line, and color. It tends to be simple and have less content or detail

SYMBOLISM – Is the artistic use of an item or object to represent something. E.g. a heart to represent love

GRAPHIC DESIGN - Combines images and words to convey information to an audience, it is often more simplistic and quicker to grasp the meaning of - such as in posters, advertising and product packaging

MESSAGE -The purpose of works of art may be to communicate personal ideas, beliefs, meaning and information to the observer

TALK AND ACT LIKE AN ENVIRONMENTALIST TO HELP THE EARTH

SUSTAINABILITY – Using materials in a way that will not damage the environment. This avoids depletion of natural resources and lessens excessive waste production

RECYCLING – The conversion of waste materials into materials for another use – e.g. the metal in a car being re used to make fridges or another car

GREEN ENERGY – Using wind, sun or wave energy to produce electricity for use. Rather than using fossil fuels or natural gas which can destroy, deplete and pollute the Earth

ENVIRONMENTALIST – Someone who considers how their actions impact on the environment e.g., recycling waste, not littering, walking instead of using a car, being considerate to the habitat they live in
